

Smart Cities Week Washington DC, September 30-October 2, 2019

Proposed Format, Structure, Session Titles

Smart Infrastructure-Equitable Communities

Themes

1. What's Working Now
2. Getting Ready for Tomorrow
3. Practical Policy and Governance
4. Spotlight Sessions and Progress Reports

Session Formats

Stage

Facilitated interactive discussion on the plenary stage with audience Q&A.

Institute

Classroom-style session with one-four subject matter experts, presentations or exercises and learning objectives.

Boardroom

Small, interactive roundtable discussion with up three subject matter experts who set the context and launch directly into a dialogue with participants

Agora

Up to seven speakers seated in a semi-circle surrounded by participants. 5-7-minute presentations by each speaker with related themes

Pressure Cooker

Up to six speakers around a table debating a timely issue. Moderator asks a series of five questions for the speakers to discuss and debate.

Lab

Presentations featuring data about pilot projects and technology implementation findings

City Readiness Hub

Official from one mentor city with officials from up to two mentee cities discussing and sharing solutions to a common issue or challenge

Mobile Workshops

Site visits and tours to local project sites, includes tours, demonstrations and other experiences

Birds of a Feather

Informal discussions about pre-determined topics during lunch breaks

Congressional Visits

Attendee visits to be organized by partner organization or company (lobbying)

Monday, September 30
